## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 20, drawn to a method for providing a Brassica plant with elevated levels of anticarcinogenic glucosinolates.

Group II, claim(s) 14-16, drawn to a Brassica plant with elevated levels of anticarcinogenic glucosinolates.

Group III, claim(s) 17-19, drawn to use of a Brassica plant with elevated levels of anticarcinogenic glucosinolates.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Brassica plants of the B. oleracea complex having elevated levels of anticarcinogenic glucosinolates were known in the prior art, as evidenced by US Patent 6,340,784 (column 4, line 33 to column 5, line 46). Therefore, the Brassica plant of Group II can be made by a different method than the method of Group I, and a different plant can be used in the method of Group III, for example.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the requirement for different searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
